## **DETAILED ACTION**

### ***Conclusion***

**THIS ACTION IS MADE FINAL.** Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire **THREE MONTHS** from the mailing date of this action. In the event a first reply is filed within **TWO MONTHS** of the mailing date of this final action and the advisory action is not mailed until after the end of the **THREE-MONTH** shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than **SIX MONTHS** from the mailing date of this final action.

### ***Claim Rejections - 35 USC § 103***

The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:

(a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negated by the manner in which the invention was made.

Claims 1-72 are rejected under 35 U.S.C. 103(a) as being unpatentable over Rassey (4,198,947) in view of Laimbook (6,257,178). Rassey discloses a modular family of internal combustion engines. Rassey does not show the detailed top end pads. Laimbook discloses the detailed top end parts. It would have been obvious to one

of ordinary skill in the art at the time the invention was made for the top end package of Rassey to include conventional components shown by Laimbock and to use the engine in any recreational vehicle in addition to the motorcycle disclosed by Laimbock.

### ***Response to Arguments***

Applicant's arguments filed June 14, 2004 have been fully considered but they are not persuasive because the prior art system can be adapted for use on all terrain vehicles.
